

# MTBO: ÖSTM/ÖM- Sprintdistanz, 1. Austria Cup 1. Ungarischer und 1. Slowakischer MTBO- Cup

Samstag, 27. April 2013, Parkplatz der Jansa-Kaserne Großmittel

Important information for map and competition area:

You are allowed to leave the tracks in open area **and in the forest**. Sometimes you **must leave** the tracks for controls. For that reason there is also a **control description printed on the map**.

Some tracks are very bad visible and on the ground there is not much to see of a "classic" track. You can see it as a „rideable“ area often results of foresting corridors.

You do not lose very much speed on tracks of category 4 in the open area. They are mainly bad visible on the ground.

In the forest you will lose more speed on category 4, but there are no major obstacles and good bikers can go on average speed.

Most of the open area in the forest is rideable with only few obstacles
